

Melvin Leow Khee Shing

Senior Consultant, Department of Endocrinology, TTSH
Senior Principal Investigator, SICS, A*STAR
Associate Professor, LKC Sch of Medicine, NTU
Clinical Associate Professor, YLLSoM, NUS
Adjunct Associate Professor, CVMD program, Duke-NUS

Research Interests:

- Thyroid physiology
- Adipocyte biology
- Insulin resistance

Email: melvin_leow@ntu.edu.sg

Biography

A/Prof. Melvin Leow is an elected Fellow of the Academy of Medicine (Singapore), American College of Endocrinology, American College of Physicians, Royal College of Physicians of Edinburgh and Royal College of Pathologists. He is also a past president of the Endocrine and Metabolic Society of Singapore. Following his medical and endocrinology training at MOH, NHG, Harvard and TTSH, he pursued intensive research training at A*STAR from 2008 and earned his PhD in biological sciences at NTU. His field of interests includes adipocyte biology, metabolic syndrome/diabetes, thyroidology, endocrine manifestations of systemic disorders and mathematical modelling of endocrine physiology. He has published works in over 200 international journals including co-authoring an 18-chapter book on thyroid systems engineering and co-editor of a 12-chapter e-book on thyroid hormones and cardiac arrhythmias. His present H-index is 42 with over 5700 citations. His co-derived Leow-Goede equations led to a patented algorithm for computing the HPT axis set-point. He co-discovered the existence of a novel thyroid-brown fat axis and an exosomal biomarker of brown fat activation. He is a co-founder of the A*STAR spin-off AdipoSight.AI start-up company. His research focus is on brown adipose tissue, thermogenesis and white adipocytes browning with nutraceuticals, pharmaceuticals, endogenous peptides/hormones.

His achievements include the Clinician Scientist Career Scheme (Senior) Award, the NHG Doctor Award for Translational Research, Dean's Award for Teaching Excellence, NHG-LKC School of Medicine Clinician Scientist Fellowship Award, NMRC Individual Research Grant Award, and the NMRC Clinician Scientist Awards (Investigator category – 2015 & 2018) and NMRC Clinician Scientist Award (Senior Investigator category – 2023).
