

Tey Hong Liang

Head of Research Division and Senior Consultant, NSC Clinical Director, Centre for Medtech and Innovations, NHG Associate Professor and co-Director of Skin Research Programme, Lee Kong Chian Medicine, NTU Adjunct Associate Professor, Yong Loo Lin Medicine, NUS

Research Interests:

- Neuro-dermatology (Itch & Sweat Disorders)
- Skin Imaging
- Dermatologic Formulations & Delivery (Esp. Dissolving Microneedles)

Email: hltey@nsc.com.sg

Biography

A/Prof Tey Hong Liang's clinical and research interest is in neurodermatology, which comprises itch and sweat disorders. Leveraging on his technical capabilities in skin imaging, dermatological formulation, and delivery (esp. therapeutics-embedded dissolving microneedles), his works include 10 active patent filings, >200 international publications, and >10 products.

Using optical clearing and 3D imaging, his team is the first to delineate the 3D neuroanatomy of the cutaneous Itch nervous system and resolved the research enigma of itch nerve fibres density in pruritic diseases. Clinically, he has instituted 4 novel patent-filed treatments and initiated 3 new clinical services. One of these is a first-in-the-world therapy utilising drug-embedded dissolving microneedles to treat diseases in humans.

In education, his most notable contribution is having authored *The Black Book of Clinical Examination*. He is also an Associate Editor of *Itch*, the official journal of the International Forum for the Study of Itch.

Notable Research Awards & Grants From Past 5 Years

Name of Awards & Grants	Year Obtained
Singapore Health and Biomedical Congress Singapore Clinician	2017
Investigator Award (Gold)	
IJDVL International Award for Best Letter to Editor	2017 & 2018
National Healthcare Group Outstanding Citizenship Award	2018
National Medical Research Council Clinician Scientist Award (CSA)	2018 & 2021
Investigator Category	
National Healthcare Group Innovator of the Year Award	2020
