Biography

Gilbert Yeo primary interest is in transitional and community care. He completed the Advanced Specialty Training (AST) program in Family Medicine, earning both the Fellowship of College Family Physician and Fellow of Academy Medicine Singapore.

In his pursuit of research interest, Gilbert dedicated himself to enhancing his knowledge in research methodology. He completed the Post Graduate Diploma in Evidence-Based Healthcare at the University of Oxford, a program conducted in collaboration with the esteemed Centre for Evidence-Based Medicine in Oxford, provided him with a profound understanding of evidence-based healthcare practices.

In addition to his commitment to evidence-based medicine, Gilbert explored his passion for qualitative healthcare research. He participated in the renowned Qualitative Health Professions Education Research Atelier organized by The Wilson Centre@HOMER. This award-winning program further honed his skills in qualitative research methods.
