

## Ng Oon Tek

Senior Consultant, Department of Infectious Diseases,  
TTSH and NCID

Head, Antimicrobial Resistance Coordinating Office, NCID  
Deputy Head, Infectious Disease Research Laboratory,  
NCID

Associate Professor, Lee Kong Chian School of Medicine,  
NTU

### Research Interests

- General Infectious Diseases
- Antimicrobial Resistance
- Emerging Infectious Disease
- HIV Medicine

Email: [Oon\\_Tek\\_Ng@ncid.sg](mailto:Oon_Tek_Ng@ncid.sg); [Oon\\_Tek\\_Ng@ttsh.com.sg](mailto:Oon_Tek_Ng@ttsh.com.sg)

### Biography

A/Prof Ng Oon Tek received his MBBS from the National University of Singapore. He completed Internal Medicine training within the Singhealth cluster and obtained his MRCP (UK) and M Med (Internal Medicine) in 2004, obtaining the Siah Cheng Siah Gold medal for being the best Internal Medicine candidate. He subsequently completed his Infectious Disease subspecialty training at Tan Tock Seng Hospital in 2008.

His research interests focus on integrating public health, laboratory medicine and clinical medicine to improve patient outcomes. This is being applied to the use of whole-genome sequencing for the control of antimicrobial resistance especially carbapenem-resistance Gram-negative infections.

## Notable Research Awards & Grants

Name of Awards & Grants	Year Obtained
<b>National Medical Research Council (NMRC) Clinician Scientist Award (CSA)</b> Oral capsule-administered faecal microbiota transplantation for intestinal carbapenemase-producing Enterobacteriaceae decolonization	2019
<b>NHG-LKCMedicine Clinician Scientist Fellowship (CSF)</b>	2019
<b>Communicable Diseases Division, Ministry of Health (MOH CDD) Operational Research Fund</b> The Research Study on Seroprevalence and Exposure Risk Factors Among Close Contacts of COVID-19 Cases	2020
<b>NMRC COVID-19 Research Fund (COVID19RF)</b> Transmission Potential of Asymptomatic SARS-CoV-2-infected Persons	2020
<b>CENTRE GRANT (CG)</b> Collaborative Solutions Targeting Antimicrobial Resistance Threats in Health Systems	2021
<b>NMRC COVID-19 Research Fund (COVID19RF)</b> Determining the Impact of SARS-CoV-2 Variants and Vaccination on Close-contact Attack Rates and Acquisition Risk Factors	2021
<b>CoSTAR-HS ARG Seed Grant</b> Development of a clinically relevant human-associated microbiota mouse model of intestinal carbapenem-resistant Enterobacteriales carriage and decolonization	2022
<b>Programme for Research in Epidemic Preparedness and REsponse (PREPARE) - Outbreak Research Strategic Funds</b> PREPARE Outbreak Research on Monkeypox in Singapore	2022

## Translating Research Into Healthcare

1. Analysis of COVID-19 Incidence and Severity Among Adults Vaccinated With 2-Dose mRNA COVID-19 or Inactivated SARS-CoV-2 Vaccines With and Without Boosters in Singapore
  - a) Paper was cited by the **The Federal Office of Public Health (Bundesamt für Gesundheit)** as part of Annex 4 submitted to **Government of Switerland** on the analysis of the Efficacy of the vaccines.

- b) The Federal Office of Public Health (FOPH) is the Swiss federal government's centre for public health and a part of the Swiss Federal Department of Home Affairs. In addition to developing national health policy, it also represents the interests of its country within international health organizations such as the OECD or the World Health Organization.

2. Transmission modes of severe acute respiratory syndrome coronavirus 2 and implications on infection control: a review

- a) The paper was cited by Sax Institute as part of the evidence snapshot and was commissioned by the Australian Commission on Safety and Quality in Health Care as part of the information to better protect healthcare workers during the SARS-CoV-2 virus.

Sax Institute:

The Sax Institute is an independent, not-for-profit organisation that improves health and wellbeing by driving better use of evidence in policies, programs and services. A Evidence Specialist team working collaboratively to embed research into the fabric of policy, program and service delivery decisions. The team develop, test and deliver best-practice approaches to working at the interface of research and health decision-making.
